

Day 16 – AI Content Generator & Company Blog Generator using n8n

- Workflow 1: AI Content Generator
- Google Sheets Trigger Configuration
- AI Agent Configuration
- Google Gemini Chat Model Configuration
- Structured Output Parser Configuration
- Google Sheets Update Node Configuration
- AI Content Generator Output

The screenshot shows the configuration for the **Google Sheets Trigger** node. The configuration is as follows:

- Parameters** tab is selected.
- Credential**: Google Sheets Trigger OAuth2 API
- Poll Times**: Mode is set to "Every Minute".
- Document**: From list, AI_Content_Generator
- Sheet**: From list, Sheet1
- Trigger On**: Row Added
- Options**: No properties

The **OUTPUT** tab shows the JSON output of the trigger:

```
{
  "Topic": "Benefits of AI",

```
{ "output": { "blog": "# Unlocking Growth: How AI Automation is Revolutionizing Small Business Productivity\n\nIn the modern economic landscape, small business owners often find themselves wearing multiple hats. From managing operations and finances to handling marketing and customer service, the \"to-do\" list can feel endless. For a long time, the primary hurdle for any small business was the limitation of human hours and resources. However, the rise of AI automation has changed the game, providing smaller enterprises with the same sophisticated tools once reserved for global corporations. \n\nAt TechNova Solutions, we believe that technology should be the great equalizer. By integrating AI automation into your daily operations, your small business can overcome traditional growth barriers, optimize productivity, and compete on a much larger scale.\n\n## The Shift from Manual to Automated\n\nFor many entrepreneurs, the word \"automation\" conjures images of complex robotics or massive server rooms. In reality, AI automation is much more accessible. It refers to software and systems that use artificial intelligence to perform repetitive, time-consuming tasks without the need for constant human intervention.\n\nFor a small business, time is the most valuable currency. When your staff is bogged down by manual data entry, appointment scheduling, or basic email sorting, they aren't focusing on the high-value activities that drive revenue. By automating these workflows, you reclaim lost hours and redirect your team's energy toward innovation and customer service."}}
