About Me

Who I Am

I am a Computer Science Engineering student at Guru Nanak Dev Engineering College (GNDEC), Ludhiana. I have a strong interest in Web Development, Artificial Intelligence, and Workflow Automation.

During my AI Automation Internship, I worked on real-world projects using HTML, CSS, JavaScript, Python, n8n, and Google Gemini. I developed intelligent automation workflows that solve practical problems.

I enjoy learning new technologies, improving my programming skills, and creating responsive websites with clean and user-friendly designs. My goal is to become a skilled Software Engineer and AI Developer.

The Lost Key

One sunny morning, a young girl named Emma was walking to school when she noticed a small golden key lying on the sidewalk. Curious, she picked it up and wondered who had lost it.

Instead of keeping the key, Emma asked people she met along the way if it belonged to them. Everyone smiled and thanked her, but no one recognized it.

When Emma reached the park after school, she saw an elderly man looking worried. He explained that he had lost the key to a small wooden box that held old family photographs.
